Attend the only education series dedicated to beginner, intermediate and advanced-level ICD-9, OASIS-C and ICD-10 training.

At the **Ultimate OASIS-C & Coding Training Series 2012**, you'll work through common home health patient scenarios to choose the appropriate codes and select the most accurate OASIS responses to ensure you submit accurate claims for complete reimbursement. Also this year, take your first step in preparing for ICD-10 with our introductory class.

### Register today for:

-  **NEW SESSION!** ICD-10 Introduction to codes and guidelines
-  Beginner, intermediate and experienced-level code training
-  Expert guidance on choosing correct codes and code sequencing for accurate payment
-  Intermediate-level OASIS-C training to include assessment and intervention strategies to assist clinicians in answering the OASIS-C process and case-mix items
-  Solutions to complex coding scenarios and take-home tools
-  Opportunity to take the HCS-D or HCS-O certification exam

### Featured speakers:

**Judy Adams**, RN, BSN, HCS-D, HCS-O, COS-C

**Sharon Molinari**, RN, HCS-D, HCS-O, COS-C

**Ann Rambusch**, RN, MSN, HCS-D, HCS-O, COS-C

**Lisa Selman-Holman**, JD, BSN, RN, MSN, HCS-D, HCS-O, COS-C

**Tricia Twombly**, RN, BSN, HCS-D, HCS-O, COS-C, CHCE

## OASIS-C INTERMEDIATE LEVEL

**Duration:** 1 day

**Locations:** Philadelphia, New Orleans, Chicago and Nashville

**Speaker:** Ann Rambusch

**Audience:** Clinical supervisors and clinicians

Achieve OASIS-C accuracy, improve case-mix and outcomes scores and receive full and prompt reimbursement by attending this full-day **intermediate-level** OASIS-C training course. Join your colleagues in working through interactive patient scenarios – updated with the latest CMS guidance – to test your competency in answering some of the most challenging OASIS-C questions. One wrong answer could mean the difference of hundreds of dollars per patient or lower outcomes scores.

Plus, you'll be prepared to take DecisionHealth's HCS-O Certification Exam.

You'll learn how to:

- ▶ Receive full reimbursement with tips for answering key case-mix questions
- ▶ Improve outcomes scores with assessment and intervention strategies for OASIS-C process items
- ▶ Avoid ADRs and denials with tips to ensure documentation matches OASIS-C items
- ▶ Refine functional-assessment strategies to comply with CMS' new therapy documentation standards
- ▶ Prepare for the HCS-O test by practicing similar scenarios used in the test

## ICD-10 Introduction

**NEW THIS YEAR!**

**Duration:** ½ day

**Locations:** Philadelphia, New Orleans, Chicago and Nashville

**Speakers:** Judy Adams (Philadelphia), Lisa Selman-Holman (New Orleans and Chicago), Trish Twombly (Nashville)

**Audience:** Clinical supervisors, clinicians, coders, coding supervisors, administrators

Don't get left behind as ICD-10 marches ahead! Start learning the new code set and guidelines. On Oct. 1, 2013, the world of home care coding will change forever when the ICD-9 code set is replaced with ICD-10. The sooner you start learning the new system, the more prepared you will be to ensure that your agency doesn't lose any reimbursement.

Get the strategies you need to start preparing now while learning how the changes will impact home health coding. You'll get:

- ▶ A look at some of the most commonly-used ICD-9 home health codes and how they will appear and function in the ICD-10 code set
- ▶ An overview of the ICD-10 guidelines that will point out the key changes in the chapters that most impact home health coding
- ▶ The key structural differences between the two code sets: Learn how to use the 7th character in ICD-10-CM – it has a different meaning depending on the section where it is being used.
- ▶ A detailed explanation of the new features found in ICD-10, including the use of laterality (left, right, bilateral), combination codes for certain conditions and common associated symptoms and manifestations, and character “x” used as a 5th character placeholder in certain 6-character codes
- ▶ An explanation of how the two types of Excludes notes work in ICD-10

**Bonus Tool:** ICD-10 crosswalk of the most common home health codes

**Required Materials:** ICD-10 Manual

## Beyond the Basics INTERMEDIATE LEVEL

**Duration:** 1.5 days

**Locations:** Philadelphia, New Orleans, Chicago and Nashville

**Speakers:** Ann Rambusch

**Audience:** Experienced Coders

Coders who have had a couple years of experience can delve into the most commonly diagnosed and miscoded diseases and the most frequently billed codes. During this interactive education – through practice scenarios – you'll learn how to properly sequence cases with multiple diseases and disciplines, investigate combination-coding issues and improve documentation. During the class, you'll:

- ▶ Code scenarios including neoplasms, multiple V codes, circulatory, respiratory and combination coding. Learn to quickly extract information that will help you accurately code and sequence.
- ▶ Learn how to sequence the most complicated conditions, such as CVA, HTN and neoplasms
- ▶ Walk through some of the toughest diabetes scenarios, such as coding diabetic ulcers, brittle diabetes, secondary diabetes as a result of pancreatectomy and osteomyelitis.
- ▶ Identify key OASIS-C coding interactions and new codes that impact home care.

**Bonus:** Use this class to prepare for the HCS-D certification exam.

**Required materials:** 2012 ICD-9-CM Manual

---

## Get Certified!

**The Ultimate OASIS-C & Coding Training Series 2012** is a great place to take your **Home Care Coding Specialist – Diagnosis (HCS-D) certification or recertification exam**. The test will be at 9:00 am at each location.

**NEW! The Ultimate OASIS-C & Coding Training Series 2012** also offers the **Home Care Clinical Specialist – OASIS (HCS-O) certification exam** onsite. The test will be at 9:00 am at each location.

## Advanced Coding **EXPERT LEVEL**

**Duration:** 1 day

**Locations:** Philadelphia, New Orleans, Chicago and Nashville

**Speakers:** Judy Adams (Philadelphia), Lisa Selman-Holman (New Orleans and Chicago), Trish Twombly (Nashville)

**Audience:** Expert HCS-D certified coders

HCS-D certified coders this is your opportunity to expand your experience and receive continuing education at an expert level. During this advanced coding training, you'll work through practice scenarios to learn how to properly sequence the most problematic coding scenarios, including those with multiple complications and late effects. Work through:

- ▶ Complicated therapy cases with several co-morbidities
- ▶ Varied neoplasm situations to determine the focus of care
- ▶ Trauma wounds, late-effect burns and complex ostomy cases
- ▶ Terminal conditions, such as ESRD and massive CVA with persistent vegetative state

**Required materials:** 2012 ICD-9-CM manual

## Coding Basics **BEGINNER LEVEL**

**Duration:** 1 day

**Locations:** Chicago

**Speaker:** Sharon Molinari

**Audience:** Supervisors who need to understand the financial impact of coding; new coders, and experienced coders who need a refresher

Beginner coders, clinicians and home health supervisors who are taking a role in coding need to understand the competencies that dictate accurate coding. In this class, you'll start with coding fundamentals, guidelines and conventions while learning how the code choices you make impact your agency's reimbursement and patient outcomes.

- ▶ Work through coding scenarios to discover how to code and learn more about the basic interactions with OASIS-C.
- ▶ Use your ICD-9 manual to correctly find codes and apply critical thinking in sequencing, proper use of V codes and the case-mix (M1024) rules.

**Required materials:** 2012 ICD-9-CM manual
